Review of Grass Lake D36 Data

The data that was sent last week via email was looked over. During this time the school administration has compiled short points of data. A group discussion took place regarding the positive changes that Grass Lake School has made. Discussion took place regarding the low test scores, low income ratio to higher price per student tuition and why. More discussion took place regarding the positive changes the Board feels on the new appointed role of Principal in the upcoming 2015/2016 school and what Ms. Shupe will bring to the school this year.

Some additional points being:

New appointment of the Principal position
PreK program is free
GLS does not charge for band instruments
GLS does not charge for after school tutoring
Free activity bus
Low student to teacher ratio
Pledge

Mrs. Collins will be contacting ACHS to see if she can have test scores pulled from previous GLS students and how they compare to other feeder students at the high school.
