

Weekly Khan Academy Assignment

Each week you are required to complete 60 minutes of math work on Khan Academy. This time is only logged while you are working on Khan Academy or watching a video through Khan Academy. At least half of your time each week needs to be from completing skill work rather than videos. This hour should be completed by midnight every Friday unless otherwise instructed. You have from Saturday - Friday to complete this each week.

You will get a weekly grade for completing your time on Khan Academy.

If there is an emergency situation that comes up that causes you to be unable to complete your hour for the week, please have your parent/guardian write me a note or send me an e-mail.
