

5TH GRADE NEWS

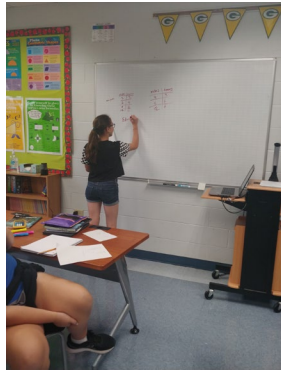

5th grade has started off the year multiplying multi-digit numbers. We created a social contract for a positive learning environment. Students have been eager to show off their work to their classmates. We have implemented a homework calendar for students to take ownership for their learning.

6TH GRADE NEWS

6th grade has the privilege of starting the year off with everyone's favorite fractions. They created their own social contract for a positive learning environment. Students have been doing great work collaborating together. We have implemented a homework calendar for students to take ownership of their learning.

7th grade has been making connections between ratios, rates, and unit rates. We have created and are working on implementing our social contract. They have gotten to share their thoughts and discuss as we solve real-world problems. They are keeping track of their homework on their own calendar and taking ownership for their learning.

8th grade began the year with identifying real numbers & solving problems using order of operations. They created a social contract to learn in a positive environment. They enjoy checking their answers with each other & finding their own mistakes. We have implemented a homework calendar for them to take ownership of their learning.
