

# 6TH GRADE WORLD HISTORY

Ms. Boliaux's Class  
at Grass Lake School

---

## WHAT'S HAPPENING

### Early Civilizations of Egypt and India

Prior to Winter Break, students presented their research projects on different Egyptian pharaohs and how they differed in the methods of ruling their societies. Moving into the wonders of early India, students are learning about the origin of sacred religions such as Buddhism and Hinduism. In addition to this unit, students are learning about the early developments of governmental structures and inventions that are still present in our modern world.

Students are using their observations towards the birth of these new ideologies to build into their understanding of how early civilizations began to establish themselves and gain power throughout different areas of land.

### A NOTE FROM THE TEACHER:

*Students receive homework assignments every week. Please check Google Classroom or Infinite Campus for updates on your child's progress.*

## WHAT'S NEXT

### China and Ancient Greece

Later this month, we will move along the timeline of our world's history and examine the achievements of the early civilizations of China. We will learn how this dynasty emerged as a great empire with a rich and complex history of influence.

We plan to utilize our notes from class to fuel ideas, discussions, and draw comparisons between these world cultures.
